# Our services

## Joint visits

We offer joint visits at your service user's home for the Accora range of products. Our Product Specialists recommend the minimum specification to meet the clinical need of your service user and work up from that as directed by the prescriber. If we believe that our products do not meet the clinical need, we'll advise the prescriber and suggest an alternative supplier.

## Sale or return

Accora products are available on a sale-or-return basis to enable users to trial a product before it is purchased. Sale-or-return provides complete peace of mind because it allows up to 14 days to evaluate accurately whether the product will meet the user's needs.

## Customer service

Accora's customer service team pride themselves on delivering an excellent customer service experience. Whether you need to request a quote, get an update on an order, enquire about a product or book a joint visit, they'll be pleased to help.

## Professional support

Since qualifying as an Occupational Therapist in 2006, Debra has worked with users with health and social care needs in community and inpatient settings.

In 2014 Debra split her time between her own case load of clients, her role with Accora and as equipment lead in the London Borough of Barnet equipment service, a role she continued until 2019.

Debra continues to practise as an occupational therapist alongside her role at Accora, which involves using her clinical knowledge and experience to inform product development, and to provide training from a clinical perspective on our product range. Debra uses her vast range of experiences as an Occupational Therapist and as equipment lead to support customers with client specific queries, and to help develop issuing criteria and sign off guidance for specialist equipment.

Contact Debra on 07967 702251 or [debra.dunitz@accora.care](mailto:debra.dunitz@accora.care)

# Specialist seating and riser recliner chairs for community equipment stores...

- Easy adjustment of size, pressure and posture requirements before and after delivery
- Easy to recycle and reissue
- Reduces costs

# Configura® Porter

**Configura Porter is a revolutionary product which allows a level of functionality not previously possible with specialist seating. For clients with fluctuating functional levels.**

Chair size	Part number	Seat depth	Seat height	Seat width	Weight capacity
Small	CFPI82016DT	450 mm (18") °	400 mm (16")	400 mm (16")	20 stone
		500 mm (20") °		450 mm (18")	
		550 mm (22")		500 mm (20")	
Medium	CFPI82020DT	450 mm (18") °	450 mm (18")	400 mm (16")	20 stone
		500 mm (20") °		450 mm (18")	
		550 mm (22")		500 mm (20")	

° Depth Adjustment kit (2" decrease in seat depth)

°° 2 x Depth Adjustment Kits (4" decrease in seat depth)

■ Standard size

**A comprehensive posture management system designed specifically for high need users.**

Part number	Adjustment	Range	Weight capacity
CHAIR-0-SCI-030	Height	330mm (13") - 530mm (21")	25 stone
	Depth	400mm (16") - 550mm (22")	
	Width	350mm (14") - 550mm (22")	

Easy-click adjustment system

'Reduced shear' recline to maximise pelvic stability

Integrated self-supply overlay, aperture dimensions 17.5" x 17.5" x 3"

Full-length compensation on legrest, giving superior leg elevation

Angle height-adjustable footplate

Continuous overlay for thigh support

Legrest elevation with 37 degrees of tilt-in-space

Forward tilt (option on all chairs)

Dropdown armrest - helps with transfers and sling insertion

# Configura® Rise & Recline

**With six standard sizes and 36 configurations, Rise & Recline is one of the most versatile chairs in the Configura range. It's appropriate for ambulant, semi-ambulant and non-ambulant users, accommodation and encouragement of good posture, and users at risk of pressure damage.**

- High-risk pressure reduction as standard
- Wide range of size requirements
- 36 size options
- Lead time 2-3 days

- 8 posture options
- Single, dual-motor tilt-in-space or dual-motor non-tilt-in-space
- 4 integrated, interchangeable pressure care options

Chair size	Part number	Seat depth	Seat height	Seat width	Weight capacity
Extra Small	CFXSDI6I8I5DT	400 mm (16")	375 mm (15")	400 mm (16")	20 stone
		450 mm (18")	400 mm (16")

# Configura® Care

**Configura Care is an affordable and adjustable chair. The Configura Care chair is easy to recycle, adjustable to suit the user's changing needs and cost-effective – giving better budget management.**

- Multi-adjustable pillow backrest as standard
- Integrated, interchangeable pressure care options
- Interchangeable posture options
- Facilitates transport of users between rooms
- For hoist-transferred users
- Adjustable seat width
- Four braked castors

Chair size	Part number	Seat depth	Seat height	Seat width	Weight capacity
Small	CFC2405I0DT	400 mm (16")	300 – 500 mm	300 mm (12")	20 stone
		450 mm (18")		350 mm (14")	
		500 mm (20")		400 mm (16")	
Medium	CFC4505I0DT	450 mm (18")	300 – 530 mm	450 mm (18")	25 stone
		500 mm (20")		450 mm (18")	
		550 mm (22")		500 mm (20")	

° Includes 2" Depth Adjustment Kit

°° Includes 2 x 2" Depth Adjustment Kits

■ Standard size

**Please note:** seat-to-floor height is 560 mm on Medium and 530 mm on Small. The seat-to-footplate height can be adjusted from 300 mm to 530 mm on Medium and 400 mm to 500 mm on Small. The footplate is an option.

Configura Custom chair combines the functionality of Configura Comfort, with the added benefit of a range of fabrics to choose from.

Chair size	Part number	Seat depth	Seat height	Seat width	Weight capacity
Small	CHAIR-0-CMI-140	450 mm (18")	375 mm (15")*	450 mm (18")	25 stone
			400 mm (16")		
		500 mm (20")	425 mm (17")*		
			450 mm (18")**		
Medium	CHAIR-0-CMI-240	450 mm (18")	425 mm (17")	500 mm (20")	25 stone
			450 mm (18")		
		500 mm (20")	475 mm (19")*		
			500 mm (20")**		
Large	CHAIR-0-CMI-340	450 mm (18")	425 mm (17")	550 mm (22")	25 stone
			450 mm (18")		
		500 mm (20")	475 mm (19")*		
			500 mm (20")**		

\*\* Includes 2" Height Adjustment Kit

\* Includes 1" Height Adjustment Kit

° The castors are removed to make the chair lower

■ Standard size

Seat depth is adjustable by 50 mm (2") as standard without extra parts

# Bed fall, or bed roll?

- Reduce the risk of injury in the event of a user fall
- Reduce the risk of care giver injury
- Enable independence and mobility

**FloorBed**<sup>®</sup>  
by Accora

## FloorBed® 1

**FloorBed 1 has a mattress platform height of just 7.1 cm, greatly reducing the risk of injury from falls, and can help to promote independence. It rises to nursing height to facilitate care tasks and offers comprehensive functional and clinical benefits to maximise user safety.**

<b>Overall dimensions</b>	925 x 2255 mm (36.4" x 88.8")
<b>Mattress size</b>	900 x 2000 mm (35.4" x 78.7")
<b>Safe working load</b>	185 kg (29 st, 408 lbs)
<b>Patient weight</b>	150 kg (24 st, 330 lbs)
<b>Lifting range</b>	71 - 650 mm (2.8" - 25.6") (excl. mattress)
<b>Profiling functions</b>	Backrest with Auto-regression, Kneebreak, Anti-Trendelenburg, Trendelenburg
<b>Min. height of service user</b>	146 cm (57.5")
<b>Part number</b>	NSB-0-FL1-200

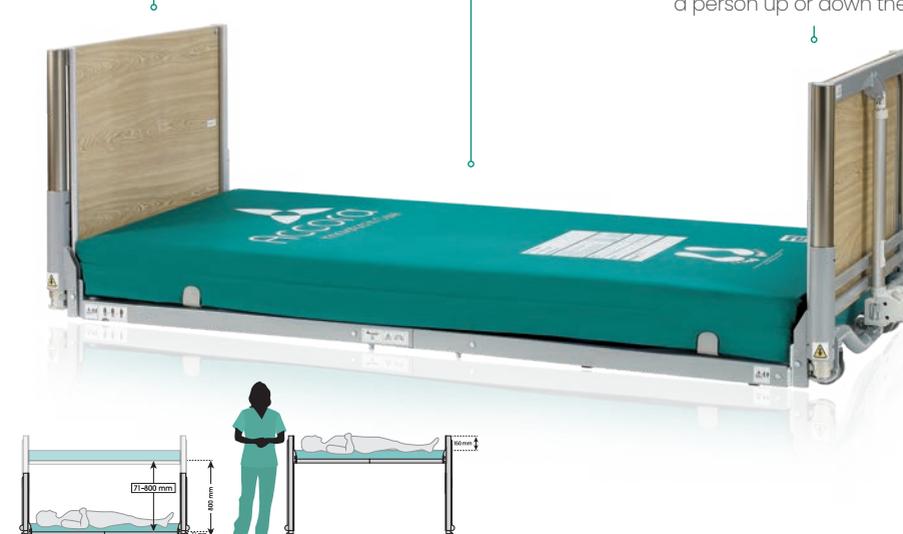

## FloorBed® 2

**FloorBed 2 lowers to just 7.1 cm and rises to 80 cm, enabling carers to complete care tasks at an appropriate height.**

The height of the head and foot boards when **FloorBed 2** is at full height is 1100 mm.

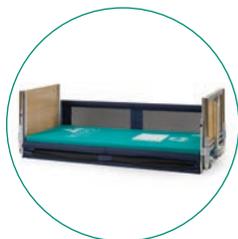

The low head and foot board enable access for care tasks such as hair care and lower limb dressing.

This will facilitate access to sliding sheets at the head or foot of the bed, allowing single carer use to reposition a person up or down the bed.

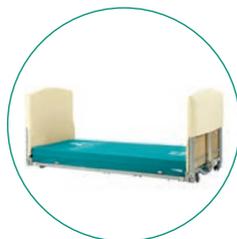

<b>Overall dimensions</b>	935 x 2285 mm (36.8" x 90.0")
<b>Mattress size</b>	900 x 2000 mm (35.4" x 78.7")
<b>Safe working load</b>	185 kg (29 st, 408 lbs)
<b>Patient weight</b>	150 kg (24 st, 330 lbs)
<b>Lifting range</b>	71 - 800 mm (2.8" - 31.5") (excl. mattress)
<b>Profiling functions</b>	Backrest with Auto-regression, Kneebreak, Anti-Trendelenburg, Trendelenburg
<b>Min. height of service user</b>	146 cm (57.5")
<b>Part number</b>	NSB-0-FL2-200

All FloorBeds are available with a range of accessories, detailed below:

Integrated padded side rails

Head and foot board bumpers

High safety mat, 22 cm high. Same height as **FloorBed** with 15 cm foam mattress

Safety sleeve reducing risk of entrapment as the platform mechanism is protected

Bed lever to assist with bed mobility

Rotating bed lever for extra support in movement

Lifting pole to assist with bed mobility

Mattress infill

Bed extension - increasing mattress platform length to 2200 mm

## Junior Beds

- Appropriate for service users from 75 cm tall
- Meets the BS EN 50637 standard, helping to keep your service user safe, and you compliant

**FloorBed<sup>1</sup>Junior**  
by Accora

Accora have developed a simple, safe and cost-effective solution to enable departments to stay compliant with the new BS EN 50637 standard for children's beds. FloorBed 1 Junior is suitable for service users with a height of 75 cm and upwards.

## Features:

Built-in and lockable pocket for storing the handset securely to prevent tampering

Head and foot board bumpers reduce impact and minimise the risk of injury

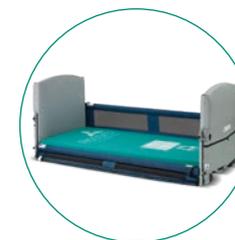

Safety sleeve reducing risk of entrapment as the platform mechanism is protected

## Accessories:

FirmEdge mattress – designed with a firm edge to further reduce risks with entrapment and allow easier transfers. The firm edge helps service users orientate themselves in bed, and can make transfers easier

Side rails with integrated bolster made of soft materials

Detailed image of the side rail with built-in side bolster

### What is it?

The new children's standard (BS EN 50637:2017 – Medical electrical equipment – Particular requirements for the basic safety and essential performance of medical beds for children) is a new standard for medical beds suitable for children.

### Why has it been introduced?

Adult beds have an intended service user group which is defined as below (adult standard is BS EN 60601-2-52):

- Over 40 kg
- Over 1.46 m in height
- With a BMI of more than 17

Anyone outside these dimensions, particularly children, therefore fall out of this user group.

### What is different in the new standard?

The main difference in the standard is the size of the gaps between side rails, mattress platform and closing gaps. These are much smaller than with adult beds. There are also extra tests that must be conducted on the bed to enable it to meet the standard, that are not required on the adult bed.

### How will it affect me?

Manufacturers must meet these standards to be able to state that their beds are suitable for children. For Local Authorities, this means that when issuing beds for children, or those who are outside of the intended service user groups for adults, an appropriate bed is used.

### What has Accora done to meet the standard?

Accora have developed a safe, simple, cost-effective solution for our beds to enable community equipment stores / prescribers to be able to comply with the new BS EN 50637 standard. Please contact us for more information and we'll be happy to discuss this in further detail with you.

# A low bed that goes to a full nursing height

- Lifts as high as a conventional profiling bed (80 cm)
- Goes as low as a conventional low bed (22 cm)
- Compliant with BS EN 60601-2-52

**CommunityBed**  
by Accora

CommunityBed allows equipment services to combine two beds into one. By combining the lifting height of a conventional profiling bed (800 mm) and the lowness of a conventional low bed (220 mm), CommunityBed allows equipment services to simplify their range and reduce stock. CommunityBed is fully compliant with BS EN 60601-2-52 and compatible with a broad range of accessories including integrated, padded-mesh side rails.

Overall dimensions	930 x 2250 mm (36 x 89")
Mattress size	900 x 2000 mm (36 x 79")
Safe working load	215 kg (34 st)
Patient weight	180 kg (28 st)
Lifting range	220 – 800 mm (8.6" – 31.5")
Profiling functions	Backrest with Auto-regression, Kneebreak, Anti-Trendelenburg, Trendelenburg
Min. height of service user	146 cm (57.5")
Part number	NSB-0-CBI-000

## Features:

Easy to use handset

Fully profiling

Excellent height for carers

Lowest position at 22 cm

## Accessories:

Bed lever

Integrated side rails – raised

Integrated side rails – lowered

# Pressed for time?

## Book a free Accora product awareness session

These sessions will raise awareness of our **FloorBed** and **Configura** ranges. Enjoy a free lunch, courtesy of Accora, at the same time.

Typical learning outcomes from a lunch and learn session include:

- How to issue appropriate seating
- How to reduce risk of bed fall injuries
- Understanding new children's bed regulations

Certificate of attendance issued. To book a session, please contact us using the details below.
